BENEFIT SYMBOLS EXPLAINED

As there are no universal standards or certifications specific to all the products in our industry, we have developed our own simple system to help you quickly find the types of benefits you are looking for.

British Material

We are passionate about using British material and to reducing our carbon footprint as a result. This symbol indicates a product which is made using material quarried in the United Kingdom.

Manufactured in the UK

We are proud to have the production facility to create bespoke memorials in our own factory and this symbol indicates a product which is manufactured in the United Kingdom.

Suitable for Laser Etching

A laser etching machine can copy a photograph, picture or drawing and reproduce the image onto granite with outstanding accuracy. This symbol indicates the materials best suited for this process.

Hand Carved Ornament

This symbol indicates that a three dimensional carving has been created by hand. Fully carved ornaments/designs often change the shape of a memorial entirely and almost certainly become the focal point of the memorial.

Low Maintenance

This symbol indicates a memorial which is highly polished making it easy to maintain. An all polished or fully honed (non-reflective) memorial can be cleaned by simply applying water with a cloth or sponge.

COMPOSE A PERSONAL INSCRIPTION

There are many ways in which an inscription can be worded and examples can be seen on the memorials within this brochure. You may wish to select a preferred font style for the lettering but unless otherwise requested, memorial inscriptions will be cut in the popular SCHOOLBOOK and BLOCK style fonts as shown on the scale drawing on page 15.

<i>Choose an introductory line</i>	<i>Compose the main inscription</i>	<i>Consider a text</i>

FOR PEACE OF MIND, WE CAN PROVIDE YOU WITH A SCALE DRAWING

Once the inscription for your loved one has been composed, our design team can on request, provide you with a scale drawing. The purpose of the drawing is to give an indication of how your chosen memorial and inscription will look whilst taking into account the shape of the memorial and the position and detail of any ornamental designs.

A scale drawing also provides you with the opportunity to ensure the inscription accurately reflects your wishes whilst providing peace of mind that the memorial will look exactly as you imagined. It also provides a means to check the spelling and dates are correct, thus reducing the risk of error.

The scale drawing sample shown, reflects the example inscription on the previous page.
